The following amendments have been made to the local weather signals in use at Japanese storm signal stations:—

When two of the terms "North, South, East and West" are used in the weather forecasts the signals are given by means of triangular flags as under:

N. E. Wind. N. W. Wind. S. E. Wind. S. W. Wind

Also when two of the terms "Clearness, Cloudiness, Rain and Snow" are used, the following square flags will be employed:

Clear, temporarily Cloudy. Clear with little Rain occasionally. Clear with little Snow occasionally. Cloudy, temporarily Clear.

Cloudy, little Rain. Cloudy, little Snow. Rain or Snow.

With regard to terms in the forecast other than those quoted above the signals employed will be those which most closely approximate to the conditions.

When the forecast is divided into several phases, the signals will be shown in the same order as given in the forecast.

In some special local circumstances, the local weather forecast signals will not necessarily be exhibited.

In some special local circumstances, the cylinder and cone of the local storm signals will not necessarily be exhibited.

APPENDIX.

NOTICES TO MARINERS.

The following Notices are published for general information.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

CALCUTTA, the 17th February 1919.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 53 (*first publication*).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1919), are republished:—

PART I.

CLOSING OF PORTS.

Former Notice.—No. 814 of 1918 (*This office No. 256 of 1918*); hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7), will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry:—

- (a) Three *red* vertical lights if the port is closed.
- (b) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the distinguishing signal of their vessel ready to hoist immediately the Examination Steamer makes the signal.

(9) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats, communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer (except to avoid accident).

(10) In case of fog, Masters are enjoined to use the utmost care, and the Port should be approached with caution.

(11) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night: the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART IV.**SWEEPING OPERATIONS.**

Notice is hereby given that under the Defence of the Realm (Consolidation) Regulations, 1914, the following Regulations have been made by the Lords Commissioners of the Admiralty, and are now in force.

H. M. Vessels are constantly engaged, both singly and in pairs, in sweeping operations off the coasts of the United Kingdom, and whilst so engaged they are hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned, and for the public safety all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass inside these distances or between the vessels of a pair, as the vessels may have mines trailing in their sweeps and also on account of the danger caused to traffic if mine-sweepers have to slip their sweeps to get out of the way of vessels.

1. SIGNALS THAT WILL BE SHOWN BY DAY.**(a) By vessels working singly :**

A black ball at the foremast head, and a similar ball at each yard-arm or where they can best be seen.

Vessels showing this signal are not to be approached nearer than 300 yards.

(b) By vessels working in pairs :

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels are not to pass within a distance of 400 yards astern of a single pair of sweepers, or when more than one pair are working in company within a distance of 400 yards astern of rear pair. They are on no account to attempt to pass between pairs working in company.

2. SIGNALS THAT WILL BE SHOWN BY NIGHT.

As for day, except that all round green lights will be used in place of the black balls.

CAUTION.

Part IV of this Admiralty Notice to Mariners is issued under the provisions of the Defence of the Realm (Consolidation) Regulations, 1914, and failure to comply strictly with the directions contained in it will constitute an offence against those Regulations.

Any person found guilty of such an offence is liable to severe penalties both of imprisonment and fine.

Any person aiding or abetting the commission of such an offence is himself guilty of an offence against the Regulations.

Attention is also drawn to the fact that any infringement of the directions contained in Part IV of this Admiralty Notice to Mariners is liable to result in the detention of the ship or vessel.

Note.

This Notice is a revision of Notice No. 814 of 1918. (*This office No. 256 of 1918.*)

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 53 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1919), are republished :—

PART I.

CLOSING OF PORTS.

Former Notice.—No. 814 of 1918 (*this office No. 256 of 1918*); hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire,

referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry :—

- (a) Three *red* vertical lights if the port is closed.
(b) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the distinguishing signal of their vessel ready to hoist immediately the Examination Steamer makes the signal.

(9) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats, communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer (except to avoid accident).

(10) In case of fog, Masters are enjoined to use the utmost care, and the Port should be approached with caution.

(11) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night: the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART IV.

SWEEPING OPERATIONS.

Notice is hereby given that under the Defence of the Realm (Consolidation) Regulations, 1914, the following Regulations have been made by the Lords Commissioners of the Admiralty, and are now in force.

H. M. Vessels are constantly engaged, both singly and in pairs, in sweeping operations off the coasts of the United Kingdom, and whilst so engaged they are hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned, and for the public safety all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass inside these distances or between the vessels of a pair, as the vessels may have mines trailing in their sweeps and also on account of the danger caused to traffic if mine-sweepers have to slip their sweeps to get out of the way of vessels.

1. SIGNALS THAT WILL BE SHOWN BY DAY.

(a) By vessels working singly:

A black ball at the foremast head, and a similar ball at each yard-arm or where they can best be seen.

Vessels showing this signal are not to be approached nearer than 300 yards.

(b) By vessels working in pairs:

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen, on that side on which it is dangerous to pass

Vessels are not to pass within a distance of 400 yards astern of a single pair of sweepers, or when more than one pair are working in company within a distance of 400 yards astern of rear pair. They are on no account to attempt to pass between pairs working in company.

2. SIGNALS THAT WILL BE SHOWN BY NIGHT.

As for day, except that all round green lights will be used in place of the black balls.

CAUTION.

Part IV of this Admiralty Notice to Mariners is issued under the provisions of the Defence of the Realm (Consolidation) Regulations, 1914, and failure to comply strictly with the directions contained in it will constitute an offence against those Regulations.

Any person found guilty of such an offence is liable to severe penalties both of imprisonment and fine.

Any person aiding or abetting the commission of such an offence is himself guilty of an offence against the Regulations.

Attention is also drawn to the fact that any infringement of the directions contained in Part IV of this Admiralty Notice to Mariners is liable to result in the detention of the ship or vessel.

Note.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 53 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1919), are republished:—

PART I.

CLOSING OF PORTS.

Former Notice.—No. 814 of 1918 (this office No. 256 of 1918); hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three red vertical lights by night, or three red vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry :—

- (a) Three *red* vertical lights if the port is closed.
- (b) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the distinguishing signal of their vessel ready to hoist immediately the Examination Steamer makes the signal.

(9) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats, communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer (except to avoid accident).

(10) In case of fog, Masters are enjoined to use the utmost care, and the Port should be approached with caution.

(11) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART IV.**SWEEPING OPERATIONS.**

Notice is hereby given that under the Defence of the Realm (Consolidation) Regulations, 1914, the following Regulations have been made by the Lords Commissioners of the Admiralty, and are now in force.

H. M. Vessels are constantly engaged, both singly and in pairs, in sweeping operations off the coasts of the United Kingdom, and whilst so engaged they are hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned, and for the public safety all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass inside these distances or between the vessels of a pair, as the vessels may have mines trailing in their sweeps and also on account of the danger caused to traffic if mine-sweepers have to slip their sweeps to get out of the way of vessels.

1. SIGNALS THAT WILL BE SHOWN BY DAY.

(a) By vessels working singly :

A black ball at the foremast head, and a similar ball at each yard-arm or where they can best be seen.

Vessels showing this signal are not to be approached nearer than 300 yards.

(b) By vessels working in pairs :

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels are not to pass within a distance of 400 yards astern of a single pair of sweepers, or when more than one pair are working in company within a distance of 400 yards astern of rear pair. They are on no account to attempt to pass between pairs working in company.

2. SIGNALS THAT WILL BE SHOWN BY NIGHT.

As for day, except that all round green lights will be used in place of the black balls.

CAUTION.

Part IV of this Admiralty Notice to Mariners is issued under the provisions of the Defence of the Realm (Consolidation) Regulations, 1914, and failure to comply strictly with the directions contained in it will constitute an offence against those Regulations.

Any person found guilty of such an offence is liable to severe penalties both of imprisonment and fine.

Any person aiding or abetting the commission of such an offence is himself guilty of an offence against the Regulations.

Attention is also drawn to the fact that any infringement of the directions contained in Part IV of this Admiralty Notice to Mariners is liable to result in the detention of the ship or vessel.

Note.

This Notice is a revision of Notice No. 814 of 1918. (This office No. 256 of 1918.)

Secy. to the Govt. of Bengal.

CALCUTTA, the 10th March 1919.

CHINA SEA AND PACIFIC OCEAN.

*Traffic Regulations, Extinction of Lights, and Discontinuance or
Withdrawal of Aids to Navigation.*

No. 70 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 155 of 1919), are republished:—

Former Notice.—No. 1245 of 1918; hereby cancelled.

I. PHILIPPINE ISLANDS.—MANILA BAY.

1. The south channel of the entrance to Manila bay is closed to all traffic, both incoming and outgoing, at all times, day or night, and under no circumstances shall it be used. The seaward limits of the entrance to this channel extend from La Monja island on the north to Limbones island on the south; and the inner limits from Corregidor island to San Nicolas shoal light.
2. The North channel is closed to traffic inward from sunset to sunrise, except to certain vessels engaged in public service. The seaward entrance to this channel is designated as being between Guardia shoal on the north and La Monja island on the south. Vessels will be permitted to leave Manila bay by the North channel without restriction as to time. The speed of all vessels passing through the North channel in the area enclosed by a line joining Guardia shoal and La Monja island, and one joining Lokanin (Limay) point and San Nicolas shoal light shall not exceed five knots.
3. The headquarters of the Naval Patrol is based in Mariveles harbour. A Naval Signal Station has been established on the highest elevation of Cochin point at the western entrance to Mariveles harbour, as an adjunct to the Patrol Vessel.
4. A vessel desiring to enter Manila bay shall proceed to the vicinity of a position having La Monja island and Corregidor lighthouse in line, with Luzon point bearing 330° (N. 31° W. Mag.), flying her national colours,

together with International Code number and there stop until communicated with by the Harbour Patrol Vessel which will be in that vicinity. In the event of the absence of the Patrol Vessel from this locality, the vessel will proceed at a speed not exceeding five knots toward a line joining Guardia shoal and La Monja island, and there await instructions from Cochin point Signal Station; this line shall not be passed until permission to do so has been granted.

5. In the event of a vessel being ordered by the Patrol Vessel or Cochin Signal Station to proceed into Mariveles harbour, she shall under no circumstances cross to the eastward of a line joining Gorda point and La Monja island.

6. When a vessel has been granted permission to proceed through the North channel she will be given a code signal which shall be hoisted immediately and kept flying while within the restricted area above described. Under no circumstance shall she, on entering, pass a line joining Gorda point and La Monja island without displaying this signal.

7. The Cochin Signal Station is provided with International signals, but routine signals may be made by shapes; that is to say, by ball, cubes (showing as squares), and cones.

Signals.

Proceed.—One Ball on yardarm (or Flag Signal).

Stop.—One Cube (Square) on yardarm or Rocket followed by Red Star (or Flag Signal).

Enter Mariveles Harbour.—One cone on yardarm point up, or Rocket followed by two Green Stars.

Patrol Ship Will Visit You.—Two Balls in vertical line from yardarm.

Hoist Safe Conduct Signal.—Cone, apex down, over Cube (Square). To be accompanied by designated letters.

8. Vessels are cautioned to use clean signal flags of sufficient size to be readily distinguished.

9. In case of a typhoon, a vessel arriving off the entrance of the North channel, and seeking shelter at night, shall burn a flare-up light at intervals. The signal granting permission to enter will be a rocket followed by two green stars, and this signal shall be repeated by a rocket fired from Corregidor. The vessel will then be entitled to proceed to an anchorage in Mariveles bay.

Failure to comply with any of the above regulations may result in the destruction of the offending vessel.

Variation.—1° E.

SÚBIC BAY.

Súbic bay is closed to traffic; any unauthorised vessel attempting to enter the port does so at her peril.

II.

III. SWATAU.

The following Regulations have been made by the Local Military Authorities at Swatau with reference to the existence of mines in the approaches to that port, and are now in force:—

1. Vessels are forbidden to proceed by the channel northward of Sugar Loaf lighthouse.

2. All vessels, including men-of-war, must enter and leave the port by the channel to the southward of Sugar Loaf lighthouse.

3. All vessels, including men of war, when entering and leaving, must, when at a distance of 3 miles from Sugar Loaf lighthouse, slow down to a speed not exceeding 6 knots.

4. Vessels leaving or approaching Sugar Loaf lighthouse may not anchor within a distance of 4 miles outside and 2 miles inside thereof, nor throw overboard heavy articles, to do so being dangerous.

5. A guardboat will be stationed by the authorities, which, in case of changes in the minefield, will approach and guide incoming and outgoing steamers.

6. All incoming and outgoing men-of-war and armed steamers should give 24 hours' notice of their expected arrival or departure to the Swatan police.

7. If vessels, including men-of-war, disregard the above rules and thereby incur risks, the local authorities will not accept responsibility.

8. The time for leaving and entering the port is fixed for the hours between 6 A.M. and 6 P.M.

Traffic Regulations, Extinction of Lights, and Discontinuance or Withdrawal of Aids to Navigation.

No. 70 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 155 of 1919), are republished :—

Former Notice.—No. 1245 of 1918; hereby cancelled.

I. PHILIPPINE ISLANDS.—MANILA BAY.

1. The south channel of the entrance to Manila bay is closed to all traffic, both incoming and outgoing, at all times, day or night, and under no circumstances shall it be used. The seaward limits of the entrance to this channel extend from La Monja island on the north to Limbones island on the south; and the inner limits from Corregidor island to San Nicolas shoal light.

2. The North channel is closed to traffic inward from sunset to sunrise, except to certain vessels engaged in public service. The seaward entrance to this channel is designated as being between Guardia shoal on the north and La Monja island on the south. Vessels will be permitted to leave Manila bay by the North channel without restriction as to time. The speed of all vessels passing through the North channel in the area enclosed by a line joining Guardia shoal and La Monja island, and one joining Lokanin (Limay) point and San Nicolas shoal light shall not exceed five knots.

3. The headquarters of the Naval Patrol is based in Mariveles harbour. A Naval Signal Station has been established on the highest elevation of Cochinos point at the western entrance to Mariveles harbour, as an adjunct to the Patrol Vessel.

4. A vessel desiring to enter Manila bay shall proceed to the vicinity of a position having La Monja island and Corregidor lighthouse in line, with Luzon point bearing 330° (N. 31° W. *Mag.*), flying her national colours, together with International Code number and there stop until communicated with by the Harbour Patrol Vessel which will be in that vicinity. In the event of the absence of the Patrol Vessel from this locality, the vessel will proceed at a speed not exceeding five knots toward a line joining Guardia shoal and La Monja island, and there await instructions from Cochinos point Signal Station; this line shall not be passed until permission to do so has been granted.

5. In the event of a vessel being ordered by the Patrol Vessel or Cochinos Signal Station to proceed into Mariveles harbour, she shall under no circumstances cross to the eastward of a line joining Gorda point and La Monja island.

6. When a vessel has been granted permission to proceed through the North channel she will be given a code signal which shall be hoisted immediately and kept flying while within the restricted area above described. Under no circumstance shall she, on entering, pass a line joining Gorda point and La Monja island without displaying this signal.

7. The Cochinos Signal Station is provided with International signals, but routine signals may be made by shapes; that is to say, by ball, cubes (showing as squares), and cones.

Signals.

Proceed.—One Ball on yardarm (or Flag Signal).

Stop.—One Cube (Square) on yardarm or Rocket followed by Red Star (or Flag Signal).

Enter Mariveles Harbour.—One cone on yardarm point up, or Rocket followed by two Green Stars.

Patrol Ship Will Visit You.—Two Balls in vertical line from yardarm.

Hoist Safe Conduct Signal.—Cone, apex down, over Cube (Square). To be accompanied by designated letters.

8. Vessels are cautioned to use clean signal flags of sufficient size to be readily distinguished.

9. In case of a typhoon, a vessel arriving off the entrance of the North channel, and seeking shelter at night, shall burn a flare-up light at intervals. The signal granting permission to enter will be a rocket followed by two green stars, and this signal shall be repeated by a rocket fired from Corregidor. The vessel will then be entitled to proceed to an anchorage in Mariveles bay.

Failure to comply with any of the above regulations may result in the destruction of the offending vessel.

Variation.—1° E.

SUBIC BAY.

Subic bay is closed to traffic; any unauthorised vessel attempting to enter the port does so at her peril.

II.

III. SWATAU.

The following Regulations have been made by the Local Military Authorities at Swatau with reference to the existence of mines in the approaches to that port, and are now in force:—

1. Vessels are forbidden to proceed by the channel northward of Sugar Loaf lighthouse.
2. All vessels, including men-of-war, must enter and leave the port by the channel to the southward of Sugar Loaf lighthouse.
3. All vessels, including men of war, when entering and leaving, must, when at a distance of 3 miles from Sugar Loaf lighthouse, slow down to a speed not exceeding 6 knots.
4. Vessels leaving or approaching Sugar Loaf lighthouse may not anchor within a distance of 4 miles outside and 2 miles inside thereof, nor throw overboard heavy articles, to do so being dangerous.
5. A guardboat will be stationed by the authorities, which, in case of changes in the minefield, will approach and guide incoming and outgoing steamers.
6. All incoming and outgoing men-of-war and armed steamers should give 24 hours' notice of their expected arrival or departure to the Swatau police.
7. If vessels, including men-of-war, disregard the above rules and thereby incur risks, the local authorities will not accept responsibility.
8. The time for leaving and entering the port is fixed for the hours between 6 A.M. and 6 P.M.

CHINA SEA AND PACIFIC OCEAN.

Traffic Regulations, Extinction of Lights, and Discontinuance or Withdrawal of Aids to Navigation.

No. 70 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 155 of 1919), are republished:—

Former Notice.—No. 1245 of 1918; hereby cancelled.

I. PHILIPPINE ISLANDS.—MANILA BAY.

1. The south channel of the entrance to Manila Bay is closed to all traffic, both incoming and outgoing, at all times, day or night, and under no circumstances shall it be used. The seaward limits of the entrance to this channel extend from La Monja island on the north to Limbones island on the south; and the inner limits from Corregidor island to San Nicolas shoal light.

2. The North channel is closed to traffic inward from sunset to sunrise, except to certain vessels engaged in public service. The seaward entrance to this channel is designated as being between Guardia shoal on the north and La Monja island on the south. Vessels will be permitted to leave Manila bay by the North channel without restriction as to time. The speed of all vessels passing through the North channel in the area enclosed by a line joining Guardia shoal and La Monja island, and one joining Lokanin (Limay) point and San Nicolas shoal light shall not exceed five knots.

3. The headquarters of the Naval Patrol is based in Mariveles harbour. A Naval Signal Station has been established on the highest elevation of Cochin point at the western entrance to Mariveles harbour, as an adjunct to the Patrol Vessel.

4. A vessel desiring to enter Manila bay shall proceed to the vicinity of a position having La Monja island and Corregidor lighthouse in line, with Luzon point bearing 330° (N. 31° W. *Mag.*), flying her national colours, together with International Code number and there stop until communicated with by the Harbour Patrol Vessel which will be in that vicinity. In the event of the absence of the Patrol Vessel from this locality, the vessel will proceed at a speed not exceeding five knots toward a line joining Guardia shoal and La Monja island, and there await instructions from Cochin point Signal Station; this line shall not be passed until permission to do so has been granted.

5. In the event of a vessel being ordered by the Patrol Vessel or Cochin Signal Station to proceed into Mariveles harbour, she shall under no circumstances cross to the eastward of a line joining Gorda point and La Monja island.

6. When a vessel has been granted permission to proceed through the North channel she will be given a code signal which shall be hoisted immediately and kept flying while within the restricted area above described. Under no circumstance shall she, on entering, pass a line joining Gorda point and La Monja island without displaying this signal.

7. The Cochin Signal Station is provided with International signals, but routine signals may be made by shapes; that is to say, by ball, cubes (showing as squares), and cones.

Signals.

Proceed.—One Ball on yardarm (or Flag Signal).

Stop.—One Cube (Square) on yardarm or Rocket followed by Red Star (or Flag Signal).

Enter Mariveles Harbour.—One cone on yardarm point up, or Rocket followed by two Green Stars.

Patrol Ship Will Visit You.—Two Balls in vertical line from yardarm.

Hoist Safe Conduct Signal.—Cone, apex down, over Cube (Square). To be accompanied by designated letters.

8. Vessels are cautioned to use clean signal flags of sufficient size to be readily distinguished.

9. In case of a typhoon, a vessel arriving off the entrance of the North channel, and seeking shelter at night, shall burn a flare-up light at intervals. The signal granting permission to enter will be a rocket followed by two green stars, and this signal shall be repeated by a rocket fired from Corregidor. The vessel will then be entitled to proceed to an anchorage in Mariveles bay.

Failure to comply with any of the above regulations may result in the destruction of the offending vessel.

Variation.— 1° E.

SÚBIC BAY.

Súbic bay is closed to traffic; any unauthorised vessel attempting to enter the port does so at her peril.

III. SWATAU.

The following Regulations have been made by the Local Military Authorities at Swatau with reference to the existence of mines in the approaches to that port, and are now in force:—

1. Vessels are forbidden to proceed by the channel northward of Sugar Loaf lighthouse.
2. All vessels, including men-of-war, must enter and leave the port by the channel to the southward of Sugar Loaf lighthouse.
3. All vessels, including men of war, when entering and leaving, must, when at a distance of 3 miles from Sugar Loaf lighthouse, slow down to a speed not exceeding 6 knots.
4. Vessels leaving or approaching Sugar Loaf lighthouse may not anchor within a distance of 4 miles outside and 2 miles inside thereof, nor throw overboard heavy articles, to do so being dangerous.
5. A guardboat will be stationed by the authorities, which, in case of changes in the minefield, will approach and guide incoming and outgoing steamers.
6. All incoming and outgoing men-of-war and armed steamers should give 24 hours' notice of their expected arrival or departure to the Swatau police.
7. If vessels, including men-of-war, disregard the above rules and thereby incur risks, the local authorities will not accept responsibility.
8. The time for leaving and entering the port is fixed for the hours between 6 A.M. and 6 P.M.
